Grateful MMC Patients Recognize Two Healthcare Heroes

Care manager **Jen Anderson, RN**, was recognized as a *Healthcare Hero*

Two MMC nurses recently received recognition from their patients as Healthcare Heroes.

Healthcare Heroes, a program through the Philanthropy Department, provides an opportunity for

patients and their families to honor someone at MMC or MMP who had a meaningful impact during their experience with our hospital. We are privileged to share these expressions of gratitude with the caregivers who make a profound difference in patients' lives every day.

Labor and Delivery's Kelly Cote has now been recognized as a Healthcare Hero four times. She was nominated by a former patient, who wrote:

"Kelly made such an impact on my life in just one shift, and gave me a glimmer of normalcy in such an

impossible time. She is truly meant to do what she does. I will forever be thankful for her compassion and kindness."

Care manager Jen Anderson, RN, also received a note from a grateful patient, who said:

"Thank you to Jen Anderson for her contagious optimism and great advance work in preparing me for discharge."

Congratulations, Kelly and Jen! Thank you for everything you do for patients and their families at MMC.

'People News'
From Front

He completed his residency in Internal Medicine at Yale – New Haven Hospital in 2013 and his cardiology fellowship at Duke University in 2016. He is also a 2018 graduate of Duke University's advanced fellowship in Clinical Cardiac Electrophysiology.

Dr. Sze was a winner of a Medtronic MEDUSA Grant for cardiology research, and his work has been published in the Journal of American College of Cardiology, Heart Rhythm, and Journal of Cardiovascular Electrophysiology, among others.

Prior to medical school, Dr. Sze worked for Teach For America, teaching sixth grade math in the Bronx and middle school music in Harlem.

Monica Thim, DO, has joined Maine Medical Partners — Hospital Medicine. Dr. Thim is Board certified in Internal Medicine and will be splitting her time

between Maine Medical Center and Stephens Memorial Hospital.

She received her medical degree from University of New England, College of Osteopathic Medicine and completed her residency at Baystate Medical Center where she was Chief Resident.

Dr. Thim's clinical interests include development of clinical education, quality improvement, clinical reasoning, pathophysiology of disease and point of care ultrasound.

When not in the hospital, she enjoys traveling, cooking and anything outdoors.

Jordan Leyton-Mange, MD, has joined Maine Medical Partners – Maine-Health Cardiology. Dr. Leyton-Mange was recently a clinical fellow in Cardiac Electrophysiology at Massachusetts General Hospital, Division of Cardiology in Boston. He also was a fellow in Cardiovascular Medicine and served as a

research fellow and resident at Massachusetts General.

His medical degree is from Johns Hopkins University in Baltimore, and he also holds a bachelor of science degree in bioengineering from Pennsylvania State University.

He has received honors from the Heart Failure Society of America and American Heart Association Council on Basic Cardiovascular Sciences.

He has published articles in several journals, including the Journal of Innovation in Cardiac Rhythm Management and Current Treatment Options Cardiovascular Medicine.

Rebecca Harvey, MD, has joined Maine Medical Partners – Otolaryngology. Dr. Harvey received her medical degree from the University of Maryland School of Medicine. She comes to MMP having recently completed her residency at the University of Michigan Health System, Department of Otolaryngology as Assistant Chief Resident.

Dr. Harvey's clinical interests include sleep medicine, rhinology, and otology, as well as medical education and simulation.

In her spare time, Dr. Harvey enjoys spending time with her family, and enjoying the scope of activities that the four seasons of Maine has to offer.

Christopher Withers, MD, has joined Maine Medical Partners – Hospital Medicine. Dr. Withers received his medical degree from New York Medical College. He completed his internal medicine and pediatrics residency here at Maine Medical Center and was Chief Resident.

Dr. Withers clinical interests include global health, pediatric transitions of care and medical education.

Outside of work, he enjoys traveling and enjoying all that Maine has to offer with his family.
