Our Patient Centered volunteer team gave away ice scrapers during a recent snow storm and collected colleagues’ thoughts about what it means to be Patient Centered. Some of their thoughts included:

- “Compassion”
- “Advocating”
- “Humanity”
- “Understanding”
- “Teamwork”
- “Respect”

During this month when we celebrate this value, take a few moments to talk with your team about what Patient Centered means to you.

A left, Financial Analyst Marie Kimball shares her thoughts on what it means to be Patient Centered. At right, Christine Zagarella, a nurse on R7, poses with her Patient Centered ice scraper.

Plowing Through

Snow plows were out in full force Thursday, February 9, clearing our driveways and sidewalks to make sure our patients could get to the hospital.

Thank you to our employees who braved the snow, wind, — some even stayed overnight — to be here for our patients.
Need a Last-Minute Valentine’s Gift?  
Visit the Flower Box, Gift Shop and Boutique at MMC for cards, chocolates, jewelry and flowers, and you won’t go home empty-handed.

February Anniversaries

35 Years
Noreen Edwards,
Gibson Pavilion
