The MITE Clinical Teaching Certificate is delivered is intended for educators in the clinical setting, regardless of background, type and/or level of the learner. The curriculum consists of 9 modules led by a subject matter expert in the MMC Department of Medical Education.

The MITE Mentoring Guide introduces learners to approaching mentor/mentee relationships. In this resource you will find 7 topics across the spectrums of mentorship. These topics include short introductory videos (<5 minutes), relevant literature, online resources and infographics.

The MITE DEI Toolkit is intended to guide educators to resources for learning and teaching about DEI. The best way to use these modules is to reflect the DEI learning process: start with definitions to ensure a shared language; shift to focus on our own identity, bias and privilege; and then focus on recognizing and addressing microaggressions.

Academy Scholars

The Academy Scholars Program continues to flourish with a wide variety of professions represented in 2022. See rosters with project titles below.

Class of 2023	Class of 2024
Maxwell Afari, MD <i>Cardiology</i> "Development of an Inter-Professional Curriculum in Cardiovascular Medicine Advanced Care Practitioners"	Sanchita Bose, MD <i>MMP - Urology</i> "Collaboration Between Urology Residents and Inpatient Nurses to Expedite Suprapubic Catheter Exchanges for Patients"

MITE Teaching Awards

The President's Award for Academic Excellence

The Barbara Bush Children's Hospital Scholarship Academy Leadership Team

Mary Ottolini, MD, MPH, MEd; Alexa Craig, MD, MSc, MS; Laura Faherty, MD, MPH, MSHP

Demonstrated commitment to the larger community and an impact on the academic mission that will have a sustained and lasting contribution to MMC.

MITE Award for Interprofessional Teaching Excellence

Ashley Gale, PharmD

Demonstrated a commitment to the larger community. They should demonstrate some form of teaching excellence through any method. Some examples could be direct teaching, mentorship and/ or research.

MITE Award for Educational Leadership and Mentorship

Brian Youth, MD; Thomas Gearan, MD; Jim Whiting, MD

Demonstrated evidence of a broad array of educational leadership and mentorship skills that has had a lasting impact on our learners, whether students, residents, fellows or faculty. This awardee is a role model who provides guidance on professional and career development.

MITE Award for Innovation in Teaching

Angie Leclerc, MSPA, PA-C & Patti Lerwick, MD

Demonstrated use of new instructional technologies, the use of traditional technologies in creative ways, novel approaches to instruction, and new ways to engage students in the learning process.

Simulation Teaching Award

Jeffrey Holmes, MD

Demonstrated the core principles of simulation education (pre-briefing and debriefing, relevant and appropriate learning objectives, evaluation) and is a mentor for other simulation educators.
