101 Maine Medical Center Physicians Named to *Down East Magazine's* "Top Docs 2015" List

101 physicians who are employed by or practice at Maine Medical Center were chosen for inclusion in *Down East Magazine's* "Maine TopDocs Physician Survey 2015" among the top specialists in their field. Of those, 34 were ranked at number one.

The physicians who made the list were chosen through a peer review in which Maine doctors were asked whom they would go to for help if their own family members had health con-

cerns in the specified areas. Seven physicians were ranked in more than one category: Charles Grimes, M.D., Allyson Howe, M.D., Michael Makaretz, M.D., Stephen A. Mette, M.D., Carmen Rinaldi, M.D., Frederick Roediger, M.D., and Steven Winn, M.D.

"We're thrilled to have so many of our primary care and specialty physicians recognized as 'Top Docs' for their expertise and experience," says Peter Bates, M.D., Senior Vice Presi-

dent, Medical and Academic Affairs, Chief Medical Officer and Academic Dean for the Maine Medical Center - Tufts University School of Medicine. "Being voted by fellow physicians shows just how well-trusted and respected these doctors are in the medical community, which translates to the best care for our patients."

This is the fourth annual TopDocs Physician Survey conducted by *Down East Magazine*. The full list can be found in the January issue

of the magazine, on newsstands now.

"We're happy to provide our readers with information on Maine's top doctors – from doctors serving Mainers," said *Down East* Editor-in-Chief Kathleen Fleury. "We are the magazine of Maine, and we pride ourselves on highlighting Mainers who deserve to be recognized for their hard work."
