

WHAT'S HAPPENING...

PUBLIC RELATIONS DEPARTMENT ■ MAINE MEDICAL CENTER ■ PORTLAND, MAINE 04102

May 13, 1974

FIRST USE TUESDAY

The classroom-auditorium in the New Diagnostic Facility will be opened for use Tuesday, with a teaching session for Tufts students scheduled as the first event at 8 a.m. At press time, plans called for entrance through the Radiology department.

Alterations on the Rolland Irish classrooms to provide access to the new Pathology department reception area in the NDF will begin Tuesday, and these rooms will be unavailable for use until the work is completed.

SEMI-ANNUAL MEETING

MMC Corporators will hold their semi-annual meeting Wednesday at 3:30 p.m. in the NDF classrooms with progress reports by Hugh C. Saunders, president of the Board of Trustees; Philip K. Reiman, executive director; Douglass W. Walker, M.D., medical director; and Jack R. Dyson, treasurer. The program, by the Department of Nursing, will be key-noted by Miss Agnes Flaherty, R.N., director of Nursing, in a talk entitled "An Inside Look at Nursing at MMC." Miss Flaherty's presentation will be followed by a talk on "Working with Open Heart Surgery Patients and their Families: Before, During and After the Operation," by Miss Mary Houlihan, R.N., a staff nurse; and a talk by Mrs. Judy Thomas, R.N., nurse instructor, on "Critical Care Nursing: Keeping Pace with the Complexities of Patient Care Services at MMC."

Temporary access to the NDF classroom is through the Radiology department.

TO HELP YOU STOP

A special shipment of round tuits is expected this week from the Maine Lung Association, and if there's enough, we'll offer one to any MMC employee who wants to stop smoking. They're especially designed for people who tell each other they'll stop smoking when they get a round tuit.

The offer of free pulmonary disease screening is still good for employees at the Pulmonary Division, 3rd floor, General Building. Smokers are especially urged to have the tests, but the appointment book is filled for this week. Make arrangements for next week, any morning, Monday through Friday, from 8 to 9. The number to call is 2662.

26TH ALUMNI DAY

Graduates of MMC medical education programs returned to the hospital in force Friday for the events of the 26th Annual Alumni Day. Surgical, psychiatry, medical, pediatric and Ob-Gyn conferences occupied the morning, and a paper entitled "Changing Problems in Bacterial Endocarditis" was delivered in the afternoon by Dr. David E. Rogers, president of the Robert Wood Johnson Foundation of Princeton, N.J., and former Dean of the Medical Faculty and Professor of Medicine, Johns Hopkins University School of Medicine and Vice President (Medicine) and Medical Director, Johns Hopkins Hospital. Dr. Rogers also was guest speaker at an evening banquet program which included a business meeting conducted by George F. Sager, M.D., president of the MMC medical staff; and the president's address delivered by Louis G. Bove, M.D.

NAMED TO STAFF

The following have been appointed to MMC Medical Staff membership by action of the Board of Trustees: Associate Medical Staff: Jeffry C. Morse, M.D., MMC, anesthesiologist; Michael L. Shuman, M.D., Yarmouth, internal medicine; Donald J. McCrann, Jr., M.D., Portland, obstetrics-gynecology; and Charles F. Thurber, M.D., Scarborough, internal medicine. Courtesy Medical Staff: Gaylen W. Johnson, M.D., Brunswick, general surgery.

A SUNDAY IN BOSTON

Tickets for the Red Sox game at Fenway Park Sunday, June 2, are still available from Art Stevenson or Tom Linehan. Combined reserved grandstand seat ticket and transportation by bus from MMC costs \$10. Six extra bus seats are available for anyone who'd like to spend a Sunday in Boston and is not interested in the baseball game. So if you'd like to do your own thing, contact Art Stevenson for a bus reservation at \$6 round trip. Bus will leave MMC at 9 a.m. and return about 5 p.m.
